

GAS HEATERS

PLATINUM GAS

- » Sleek ceramic screen for superior wind resistance
- » Available in both Natural Gas and Propane (LPG)
- » Heat output of up to 39,800 BTU
- » Heat spread area up to 215ft²

TUNGSTEN GAS

- » Striking industrial design style with grate fascia
- » Available in both Natural Gas and Propane (LPG)
- » Heat output of up to 43,000 BTU
- » Heat spread area up to 215ft²

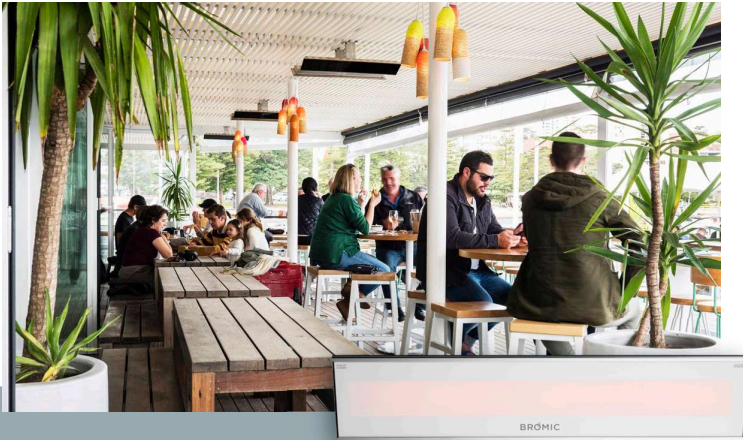

TUNGSTEN PORTABLE

- » Easy to maneuver
- » Highly-efficient directional radiant heating
- » Available in both Natural Gas and Propane (LPG)
- » Heat output of 43,000 BTU
- » Heat spread area up to 215ft²
- » Award-winning design

ELECTRIC HEATERS

BROMIC
HEATING

PLATINUM ELECTRIC

- » Ceramic screen for superior wind resistance
- » Three power options (2300W, 3400W, and 4500W)
- » Low light emission - No red glow!
- » Low profile design with minimal clearance requirements
- » Wall, ceiling and recessed mounting options

TUNGSTEN ELECTRIC

- » High power electric up to 6,000 watts
- » Four models for flexible heating solutions
- » Stainless steel construction
- » Timeless industrial design style
- » Wall, ceiling and recessed mounting options

ECLIPSE ELECTRIC

- » Contemporary pendant design style
- » Striking and functional heat and light combination
- » Three heat output pre-sets up to 2900W
- » Dimmable LED lighting rail
- » Six unique mounting options

ECLIPSE PORTABLE

- » Eye-catching dual heat and light freestanding unit
- » Three heat output pre-sets up to 2900W
- » Dimmable LED lighting rail
- » Heat spread area of 121ft²
- » Built-in dimmer controller & companion wireless remote
